PROJECTS

CQS Connect:

Skill Used: JQuery, html, CSS, JavaScript, C#, ASP.NET, SQL Server 2014

Description: In my role as a developer for CQS Connect, I engineered an innovative e-learning web application that empowers learners with certifications across diverse technological domains. Orchestrated the end-to-end development process, from crafting a dynamic user interface to integrating seamless payment gateways. Collaborated closely with subject matter experts to curate comprehensive certification content and assessment modules. Implemented a user-centric dashboard that tracks progress and offers personalized learning pathways. Through this project, I showcased my ability to create a cutting-edge e-learning platform that bridges knowledge gaps and enhances

professional growth by providing certifications in a range of technologies.

DPS (Delhi Public School Society)

Skill Used: JQuery, html, CSS, JavaScript, C#, ASP.NET, SQL Server 2014

Description: Played a pivotal role in designing and developing the official website for DPS School, leveraging my expertise as a developer. Crafted a dynamic and user-friendly online platform that showcases the school's ethos, programs, and achievements. Collaborated closely with the school's stakeholders to ensure the website aligns with their vision, incorporating features such as event calendars, admission information, and interactive communication channels. Implemented responsive design principles to guarantee optimal functionality across various devices. The DPS School website now serves as a virtual gateway for students, parents, and staff, enhancing engagement and facilitating seamless access to essential resources.
